

NCIC/NLETS Services (NNSV)

What is NNSV?

The International and Justice Public Safety Screening Services, more commonly known as NNSV, is the query service comprised of the National Crime and Information Center (NCIC) and the International Justice and Public Safety Network (Nlets).

Who Uses NNSV?

NNSV provides Customs and Border Protection (CBP) with query / record entry access to the Federal Bureau of Investigation's (FBI's) NCIC data, as well as data owned by the states, Interpol, Immigration and Customs Enforcement (ICE), Canada, and the National Insurance Crime Bureau (NICB), via Nlets. Nlets links together and supports every federal, state, local law enforcement, justice, and public safety agency for the purposes of sharing and exchanging critical information.

Include usage statistics, number of travelers, transactions, etc.

- On a typical day, NNSV processes about 5 million person and vehicle queries for its consumers.

Benefit to Users?

Modernization of the NNSV system provides (b) (7)(E) Passenger Systems Program Directorate (PSPD) consumers, and allows person and vehicle screening to be more easily combined with other services.

Supporting the Mission?

Relevant data from NNSV services is necessary for CBP to effectively and efficiently perform its inspection, including assessing the admissibility of a person attempting to enter the U.S.
